Dear President-elect Trump's Transition Team,

As representatives of the food and agriculture value chain, the undersigned organizations write to express our enthusiasm for working with you and upcoming administration leaders to ensure that America continues to have the safest, most affordable food, feed, and fiber supplies in the world. We are eager to support administration nominees and appointees who commit to science- and risk-based decision making.

Science- and risk-based decision making will ensure that policy is factually based and efficient in ensuring consumer health and safety. Our organizations support food and nutrition policies that are based on robust scientific evidence, deliver measurable benefits to consumers, and empower consumers to make informed and healthy purchasing decisions while preventing misunderstanding and confusion.

We stand ready to support the next administration and its efforts to advance safe and affordable food, feed, and fiber supplies.

Thank you for your consideration of our views.
